The date of these Final Terms is 27th November, 2023.

These Final Terms, under which the bonds described herein (the **Bonds**) are issued, are supplemental to, and should be read in conjunction with, the offering circular (the **Offering Circular**) dated 8th December, 2014 issued in relation to the debt issuance programme of European Investment Bank (**EIB**). The Bonds will be issued on the terms of these Final Terms read together with the Offering Circular. Terms defined in the Offering Circular have the same meaning in these Final Terms.

EIB accepts responsibility for the information contained in these Final Terms which, when read together with the Offering Circular, contain all information that is material in the context of the issue of the Bonds.

These Final Terms do not constitute an offer of, or an invitation by or on behalf of anyone to subscribe or purchase any of, the Bonds.

The Bonds shall not be offered or sold to any Russian or Belarusian natural or legal person, entity or body if and to the extent that this would contravene any applicable restriction under sanctions imposed by the European Union (the **EU**) (as may be amended, supplemented, replaced or superseded from time to time).

The Treaty on European Union aims to establish an internal market that works for the sustainable development of Europe. Ensuring an appropriate regulatory environment is a priority area of the EU's Capital Markets Union. The European Commission's Action Plan on "Financing Sustainable Growth" has been designed to help reorient capital flows towards sustainable investment.

For this purpose, Regulation (EU) 2020/852 of the European Parliament and of the Council of 18th June, 2020 on the establishment of a framework to facilitate sustainable investment (the **EU Taxonomy Regulation**) aims to stimulate companies to measure the impact of their activities on sustainable objectives via the development of a shared understanding of sustainability. The EU Taxonomy Regulation underlines that the European Union is committed to the implementation of:

- the United Nations 2030 Agenda for Sustainable Development (the **Agenda**), notably to taking on board in all actions and policy initiatives the Agenda's Sustainable Development Goals;
- the Paris Climate Agreement (the **Paris Agreement**), notably to making finance flows consistent with a pathway towards low greenhouse gas emissions.

The task of the EIB is to contribute to the balanced and steady development of the internal market in the interest of the European Union. In July 2007, in congruence with the EU Energy Action Plan, the EIB issued the first Climate Awareness Bond (**CAB**) with a focus on renewable energy and energy efficiency. The goal was to increase accountability of disbursements via precise eligibility criteria and to provide transparent impact assessment to capital markets.

With this CAB, the EIB extends the same approach to include renewable energy, energy efficiency and other activities contributing substantially to climate change mitigation. The EU Taxonomy Regulation states that "an economic activity shall qualify as contributing substantially to climate change mitigation where that activity contributes substantially to the stabilisation of greenhouse gas concentrations in the atmosphere at a level which prevents dangerous anthropogenic interference with the climate system".

The proceeds of this CAB will be allocated to the EIB's lending to activities that contribute to this purpose by avoiding or reducing greenhouse gas emissions or enhancing greenhouse gas removals through means, including through process or product innovation, in line with evolving EU sustainable finance legislation and the related technical expert group conclusions.

Activities and means considered to contribute substantially to climate change mitigation are subject to revision in the context of EU legislative developments, which include the establishment and update by the European Commission of the technical screening criteria to determine the conditions for their consideration. Such revisions will not be notified to Bondholders.

The net proceeds of the issue of the Bonds (which proceeds may be converted into euro) will be allocated within the EIB's treasury to a sub-portfolio of the operational money market portfolio. So long as the Bonds are outstanding, the balance of the sub-portfolio will be reduced by amounts matching disbursements made to eligible lending projects. Pending such disbursement, the sub-portfolio will be invested in money market instruments.

MiFID II Product Governance

The EIB does not fall under the scope of application of the MiFID II package. Consequently, the EIB does not qualify as an "investment firm", "manufacturer" or "distributor" for the purposes of MiFID II.

Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Bonds has led to the conclusion that: (i) the target market for the Bonds is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Bonds to eligible counterparties and professional clients are appropriate, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Bonds (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Bonds (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

For the purposes of this provision, the expression **manufacturer** means the Relevant Dealer and the expression **MiFID II** means Directive 2014/65/EU, as amended.

UK MiFIR Product Governance

The EIB does not fall under the scope of application of the UK MiFIR package. Consequently, the EIB does not qualify as an "investment firm", "manufacturer" or "distributor" for the purposes of UK MiFIR.

Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Bonds has led to the conclusion that: (i) the target market for the Bonds is only eligible counterparties, as defined in COBS, and professional clients, as defined in UK MiFIR; and (ii) all channels for distribution of the Bonds to eligible counterparties and professional clients are appropriate, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. Any person subsequently offering, selling or recommending the Bonds (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the UK MiFIR Product Governance Rules is responsible for undertaking its own target market assessment in respect of the Bonds (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

For the purposes of this provision, the expression **manufacturer** means the Relevant Dealer, the expression **UK MiFIR** means Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018, the expression **COBS** means the FCA Handbook

Conduct of Business Sourcebook and the expression **UK MiFIR Product Governance Rules** means the FCA Handbook Product Intervention and Product Governance Sourcebook.

The terms of the Bonds and additional provisions relating to their issue are as follows:
