**BofA Securities**

The date of these Final Terms is 23rd February, 2026.

Terms used herein shall be deemed to be defined as such for the purposes of the terms and conditions set forth in the offering circular dated 8th December, 2014 (the **Conditions**) in relation to the debt issuance programme of European Investment Bank (**EIB**). This document constitutes the Final Terms of the bonds described herein (the **Bonds**) and, save in respect of the Conditions, must be read in conjunction with the offering circular dated 28th November, 2025 (the **Offering Circular**). The Conditions, as completed by these Final Terms, apply to the Bonds.

EIB accepts responsibility for the information contained in these Final Terms which, when read together with the Offering Circular and the offering circular dated 8th December, 2014, contain all information that is material in the context of the issue of the Bonds.

These Final Terms do not constitute an offer of, or an invitation by or on behalf of anyone to subscribe or purchase any of, the Bonds.

The Bonds shall not be offered or sold to any Russian or Belarusian natural or legal person, entity or body if and to the extent that this would contravene any applicable restriction under sanctions imposed by the European Union (**EU**) (as may be amended, supplemented, replaced or superseded from time to time).

The Treaty on European Union aims to establish an internal market that works for the sustainable development of Europe. Ensuring an appropriate regulatory environment is a priority area of the EU Capital Markets Union. The European Commission's Action Plan on "Financing Sustainable Growth" has been designed to help reorient capital flows towards sustainable investment.

For this purpose, Regulation (EU) 2020/852 of the European Parliament and of the Council of 18th June, 2020 on the establishment of a framework to facilitate sustainable investment (the **EU Taxonomy Regulation**) aims to stimulate companies to measure the impact of their activities on sustainable objectives via the development of a shared understanding of sustainability. The EU Taxonomy Regulation underlines that the European Union is committed to the implementation of:

- the United Nations 2030 Agenda for Sustainable Development (the **Agenda**), notably to taking on board in all actions and policy initiatives the Agenda's Sustainable Development Goals;
- the Paris Climate Agreement (the **Paris Agreement**), notably to making finance flows consistent with a pathway towards low greenhouse gas emissions.

The task of the EIB is to contribute to the balanced and steady development of the internal market in the interest of the European Union. In July 2007, in congruence with the EU Energy Action Plan, the EIB issued the first Climate Awareness Bond (**CAB**) with a focus on renewable energy and energy efficiency. The goal was to increase accountability of disbursements via precise eligibility criteria and to provide transparent impact assessment to capital markets.

With this CAB, the EIB extends the same approach to include renewable energy, energy efficiency and other activities contributing substantially to climate change mitigation. The EU Taxonomy Regulation states that "an economic activity shall qualify as contributing substantially to climate change mitigation where that activity contributes substantially to the stabilisation of greenhouse gas concentrations in the atmosphere at a level which prevents dangerous anthropogenic interference with the climate system consistent with the long-term temperature goal of the Paris Agreement".

The proceeds of this CAB will be allocated to the EIB's lending to activities that contribute to this purpose through the avoidance or reduction of greenhouse gas emissions or the increase of greenhouse gas removals, including through process innovations or product innovations, in line with evolving EU

sustainable finance legislation, including the EU Taxonomy Regulation, and the related technical expert group conclusions.

Activities and means considered to contribute substantially to climate change mitigation are subject to revision in the context of EU legislative developments, which include the establishment and update by the European Commission of the technical screening criteria to determine the conditions for their consideration. Such revisions will not be notified to Bondholders.

The net proceeds of the issue of the Bonds (which proceeds may be converted into euro) will be allocated within the EIB's treasury to a sub-portfolio of the operational money market portfolio. So long as the Bonds are outstanding, the balance of the sub-portfolio will be reduced by amounts matching disbursements made to eligible lending projects. Pending such disbursement, the sub-portfolio will be invested in money market instruments.

**EU MiFID II product governance / Professional Investors and Eligible Counterparties Only Target Market** – EIB does not fall under the scope of application of the package under Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments (**EU MiFID II**). Consequently, EIB does not qualify as an "investment firm", "manufacturer" or "distributor" for the purposes of EU MiFID II.

Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Bonds has led to the conclusion that: (i) the target market for the Bonds is eligible counterparties and professional clients only, each as defined in EU MiFID II; and (ii) all channels for distribution of the Bonds to eligible counterparties and professional clients are appropriate, subject to the distributor's suitability and appropriateness obligations under EU MiFID II, as applicable. Any person subsequently offering, selling or recommending the Bonds (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to EU MiFID II is responsible for undertaking its own target market assessment in respect of the Bonds (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under EU MiFID II, as applicable.

For the purposes of this provision, the expression **manufacturer** means the Relevant Dealer.

### **EIB Update on Excluded Activities**

On 19th June, 2025, the Board of Directors (Board) of EIB approved a simplified list of activities excluded from EIB financing (the **Excluded Activities List**), which approval was recorded at the EIB Board meeting held on 16th July, 2025. The adoption of the Excluded Activities List forms part of the series of measures previously announced by the EIB to further strengthen the financing for European security and defence.

Pursuant to the Excluded Activities List, the EIB does not finance the following activities:

1. Activities prohibited by host country law or by international agreements ratified by the European Union or subject to international phase outs or bans.
2. Weapons and ammunition. Outside of the European Union, military or police equipment and infrastructure are also excluded.
3. Prisons and detention centres.
4. Harmful or exploitative forms of forced labour or child labour, as defined by the International Labour Organization's Fundamental Labour Conventions.

5. Conversion of natural forests into plantations and the degradation of tropical natural forests or high conservation value forests.
6. Unsustainable fishing methods (such as drift net fishing in the marine environment using nets in excess of 2.5 km in length and blast fishing).
7. Extraction or mining of conflict minerals and metals.
8. Extraction of mineral deposits from the deep sea.
9. Animal and human reproductive cloning.
10. Sex industry and related activities.
11. Tobacco and related activities.
12. Gambling and casinos.
13. Projects with political or religious purposes.

The Excluded Activities List complements other EIB lending policies, notably the EIB Group Environmental and Social Policy. For the avoidance of doubt, final beneficiaries of EIB operations may be involved in weapons and ammunition, provided that EIB financing does not support these activities. The Excluded Activities List will apply immediately to projects eligible for EIB financing. The EIB Board may update the Excluded Activities List from time to time without prior notice.

The terms of the Bonds and additional provisions relating to their issue are as follows:
